

High Prevalence of Asymptomatic Nasopharyngeal Carriage Rate and Multidrug Resistance Pattern of *Streptococcus pneumoniae* Among Pre-School Children in North Showa Ethiopia [Corrigendum]

Tilahun M, Fiseha M, Ebrahim E, et al. *Infect Drug Resist.* 2022;15:4253–4268.

The authors have advised due to a clerical error, the headings for Tables 1, 2 and 3 on pages 4258, 4260 and 4261, respectively, are incorrect. The location of “Gondar Town, North West” should read “Debre Berhan, North Showa”.

Furthermore, the heading of Table 4 on page 4262 is also incorrect. The text “Debre Berhan North West” should read “Debre Berhan, North Showa”.

Publish your work in this journal

Infection and Drug Resistance is an international, peer-reviewed open-access journal that focuses on the optimal treatment of infection (bacterial, fungal and viral) and the development and institution of preventive strategies to minimize the development and spread of resistance. The journal is specifically concerned with the epidemiology of antibiotic resistance and the mechanisms of resistance development and diffusion in both hospitals and the community. The manuscript management system is completely online and includes a very quick and fair peer-review system, which is all easy to use. Visit <http://www.dovepress.com/testimonials.php> to read real quotes from published authors.
