

Kinesin Superfamily Member I8B (KIF18B) Promotes Cell Proliferation in Colon Adenocarcinoma [Retraction]

Zhao F, Feng Y, Zhang X, Liu X, Li A. *Cancer Manag Res.* 2020;12:12769–12778.

We, the Editors and Publisher of *Cancer Management and Research*, have retracted the following article.

Since publication, concerns have been raised about the integrity of the data in the article. This includes the duplication of tumor images for Figure 5A with images for Figure 5A from Gao Z-Y, Yu F, Jia H-X, Ye Z, Yao S-J. ASPM predicts poor prognosis and regulates cell proliferation in bladder cancer. *Kaohsiung J Med Sci.* 2020;36:1021–1029. <https://doi.org/10.1002/kjm2.12284>.

When approached for an explanation, the authors were cooperative but were unable to address the concerns raised and have not been able to provide sufficient supporting information. As verifying the validity of published work is core to the integrity of the scholarly record, we are therefore retracting the article and the authors were informed of this decision.

We have been informed in our decision-making by our editorial policies and COPE guidelines.

The retracted article will remain online to maintain the scholarly record, but it will be digitally watermarked on each page as 'Retracted'.

Publish your work in this journal

Cancer Management and Research is an international, peer-reviewed open access journal focusing on cancer research and the optimal use of preventative and integrated treatment interventions to achieve improved outcomes, enhanced survival and quality of life for the cancer patient. The manuscript management system is completely online and includes a very quick and fair peer-review system, which is all easy to use. Visit <http://www.dovepress.com/testimonials.php> to read real quotes from published authors.
